

March 27, 1974

SENATOR WHITNEY: Yes, I'm not talking about subject that has just been at hand. And I'm asking Senator Proud a question. I'd like to have Senator Proud answer.

PRESIDENT: This is just a point of information. Senator Proud do you want to indicate what has happened previously. And I'm going to say again, that's it's a moved point. The Chair has been unheld, and that I can't understand the necessity for the continued discussion other than I don't want to confuse the body what I will admitt that there has been a lack of continuity here. The Chair would like to know that too. Senator Proud, go ahead and answer please.

SENATOR PROUD: Well, everybody seems to be uptight. But I'm cool, calm and collected. Yes, yesterday as I recall, Senator Carpenter had an amendment. Then, Senator Carpenter had an amendment to an amendment. And I ruled that his amendment was..to his own amendment. I recall, I know what it is. I ruled that his amendment to his amendment only took a majority of those voting for the simple reason all he had to do was resubmit his amendment in another form and it was just a waste of time. So I did not rule on this precise question because in Senator Carpenter's case it was an amendment to his own amendment. In this case it's an amendment by Senator DeCamp to Senator Cavanaugh's amendment, and If I was the Chair however I would rule the same as I did yesterday. But and if I sit in the Chair again I would rule the same.

SENATOR WHITNEY: Thank you.

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: I have a motion.

PRESIDENT: Read the motion on the desk.

CLERK: Well, which one. I have several. Mr. President I move that LB647 be passed into law notwithstanding the objections of the Governor.

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: Mr. President, this is the bill which we passed with regard to the Supreme Court and their authority over Court Reporters and records in the Supreme Court. We passed this bill with a 39 to 0 nothing vote, with 10 not voting. And it was vetoed by the Governor on one grounds only. And that was on a technical error, that 647 did not repeal one section which was in LB162 which this body passed earlier. So all we have to do to correct that error is to place into a bill which is the bill before the repealer on this one section in LB162. Now we have looked over the board very carefully on underlined and we have one bill which we can do this on, is LB705, the introducer of that bill is Senator Chambers. It is a bill which deals with bar examinations, which Senator Chambers would like to have passed, which the court will not help him to get passed by putting this amendment on it. So we can affect this change. I talked to the Governor in the rotunda during the noon break, and the Governor reiterated the fact that it was only this technical matter that caused him to properly, and I say quite properly veto this bill. So all we have to do is to, if we override the
